You will use the command line

You will be a git expert!
You will use the command line

- git is built for the command line

- Other tools often omit functionality, have bugs, rename things

- Command line is a more transferrable skill

- Linux: probably have git already or can easily install it

- Windows: Use the official installer, includes "Git Bash"

- Mac: probably have git already but it's old, update it with homebrew
